

Health & Safety Policy Statement

Safe machines, safe delivery, safe sites

Version: 1.0 · **Reference:** APH-POL-HS-1.0 · **Effective:** 09 September 2026 · **Next review:** September 2027

Ai Plant Hire Ltd hires modern excavators, dumpers, rollers and attachments and delivers them to customer sites. Our aim is that nobody – staff, customers, contractors or the public – is harmed by our machines or our work.

Our commitments

- Supply only machines that are safe, serviced and inspected, with a documented pre-delivery check on every hire.
- Maintain every machine to the manufacturer's schedule and keep service, LOLER and inspection records.
- Deliver with fuel, safety checks complete, and a handover that covers controls, warnings and daily checks.
- Train our drivers and yard staff in safe loading, unloading, transport and handover, and give them the equipment they need.
- Provide clear safety instructions and user manuals for every machine on our website and at handover.
- Replace or repair any machine that develops a fault on hire, and never ask a customer to keep using a faulty machine.
- Report and investigate every accident, near miss and dangerous occurrence, and comply with RIDDOR.
- Review this policy every year, or sooner after any serious incident or change in the law.

What we ask of customers

- Only let trained, competent people operate the machine.
- Make sure ground conditions are suitable and the site can safely take a van and plant trailer.
- Do the daily checks (fuel, oil, leaks, tracks, lights) before each use.
- Stop and call us if a warning light comes on or anything feels wrong.
- Keep the machine secure and switched off when not in use.
- Tell us straight away about any leak, fault, damage or hazard.

Responsibility

Major Singh has overall responsibility for health and safety. Day-to-day responsibility at the yard and on deliveries sits with Major Singh. Every employee is responsible for their own safety and that of others affected by their work, and must report hazards immediately.

Legal framework

Health and Safety at Work etc. Act 1974; Provision and Use of Work Equipment Regulations 1998 (PUWER); Lifting Operations and Lifting Equipment Regulations 1998 (LOLER); Management of Health and Safety at Work Regulations 1999; RIDDOR 2013.
